Description

Digital Stainless Steel Calipers

Description:

The Digital Caliper Vernier gives you a precise reading by displaying the measurement on an LCD display screen relating to the size of the item you are measuring. Made from stainless steel, the Digital Caliper is tough and has a lock screw for added accuracy. The measuring range is 0-150mm or 6 inches and can be displayed in inch or millimetre format. A Excellent tool for getting precise measurements of your Adult beetles and Larvae head capsules.

- Stainless steel & plastic with LCD display.
- Zero setting at any position for ease of use and clear readings.
- Readings can be displayed in either inch or millimetre format.
- With locking screw for accuracy.
- Measuring Range: 0-150 mm.
- Accuracy: + 0.02 mm/ 0.001 in. (100 - 150 mm)
- Resolution: 0.01mm/ 0.0005 in. Repeatability: 0.01mm/ 0.0005 in
